

A contour plot showing the illuminance distribution from an LED source at a height of 10.0 m. The plot is titled "LED 11205 lm". The horizontal axis represents distance in meters (m), ranging from -30 to 30. The vertical axis represents height in meters (m), with a mark at 0. The plot shows several concentric contour lines representing different illuminance levels in lux. The highest illuminance is at the center, with a value of 20 lux. Other contour lines are labeled with values 10, 5,0, 2,0, and 1,0. The text "LPH : 10,0 m" is located in the bottom right corner of the plot area.
